or Early Action give me a leg up? · Which extracurricular activities do colleges want to see? · How does the financial aid process work? · What's more important: GPA or test scores? *The Opposite of Spoiled* Jun 27 2019 New York Times Bestseller "We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents." — Gretchen Rubin, author of *The Happiness Project* In the spirit of Wendy Mogel's *The Blessing of a Skinned Knee* and Po Bronson and Ashley Merryman's *Nurture Shock*, New York Times "Your Money" columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from

families with a range of incomes, *The Opposite of Spoiled* is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled, and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But *The Opposite of Spoiled* is also a promise to our kids that we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don't know how and when to start.

**Blind Into Baghdad** Sep 30 2019 In the autumn of 2002, Atlantic Monthly national correspondent James Fallows wrote an article predicting many of the problems America would face if it invaded Iraq. After events confirmed many of his predictions, Fallows went on to write some of the most acclaimed, award-winning journalism on the planning and execution of the war, much of which has been assigned as required reading within the U.S. military. In *Blind Into Baghdad*, Fallows takes us from the planning of the war through the struggles of reconstruction. With unparalleled access and incisive analysis, he shows us how many of the difficulties were anticipated by

experts whom the administration ignored. Fallows examines how the war in Iraq undercut the larger "war on terror" and why Iraq still had no army two years after the invasion. In a sobering conclusion, he interviews soldiers, spies, and diplomats to imagine how a war in Iran might play out. This is an important and essential book to understand where and how the war went wrong, and what it means for America.

**The Watchdog That Didn't Bark** Feb 02 2020 The Pulitzer Prize-winning reporter details "how the U.S. business press could miss the most important economic implosion of the past eighty years" (Eric Alterman, media columnist for *The Nation*). In this sweeping, incisive post-mortem, Dean Starkman exposes the critical shortcomings that softened coverage in the business press during the mortgage era and the years leading up to the financial collapse of 2008. He examines the deep cultural and structural shifts—some unavoidable, some self-inflicted—that eroded journalism's appetite for its role as watchdog. The result was a deafening silence about systemic corruption in the financial industry. Tragically, this silence grew only more profound as the mortgage madness reached its terrible apogee from 2004 through 2006. Starkman frames his analysis in a broad argument about journalism itself, dividing the profession into two competing approaches—access reporting and accountability reporting—which rely on entirely different sources and produce radically

different representations of reality. As Starkman explains, access journalism came to dominate business reporting in the 1990s, a process he calls "CNBCization," and rather than examining risky, even corrupt, corporate behavior, mainstream reporters focused on profiling executives and informing investors. Starkman concludes with a critique of the digital-news ideology and corporate influence, which threaten to further undermine investigative reporting, and he shows how financial coverage, and journalism as a whole, can reclaim its bite. "Can stand as a potentially enduring case study of what went wrong and why."—Alec Klein, national bestselling author of *Aftermath* "With detailed statistics, Starkman provides keen analysis of how the media failed in its mission at a crucial time for the U.S. economy."—Booklist

**Game On** Apr 05 2020 How is it possible that Harvard is more affordable for most American families than the local state university? Or that up to half of eligible students receive no financial aid? Or that public universities are rejecting homegrown middle-and working-class applicants and instead enrolling wealthy out-of-state students? College admission has escalated into a high-stakes game of emotional and financial survival. How is the deck stacked against you? And what can you do about it? Susan F. Paterno, a veteran academic and author, answers these questions and more in *Game On*. Paterno helped her four very different kids navigate the application process to a wide range of colleges, financing their four-year educations on a finite budget. She smartly decodes the college admissions industry—the consultants, the tutors, the

rankers, the branding companies hawking "advantage"? and arms you with the knowledge you needed to make the system work for you. You'll learn how to use a sorting hat of your own devising?narrowing your focus, analyzing who gets in and why, looking for the right financial fit before considering anything else, including geography, reputation and, especially, ranking. - Why forty years of failed free-market policies led to skyrocketing tuition and historic levels of student debt - Why applying to college became a bewildering maze and how to find your way to a successful end - Why college costs are more terrifying than you think - How to read beyond the rack rate to negotiate the best financial package with the least debt - Why merit is a myth, but merit aid is essential - The difference between family debt and student debt and how to split it

A playbook for the hunger games of higher education, *Game On* explains the anxiety, uncertainty, and chaos in college admissions, explodes the myth of meritocracy, exposes the academy's connection to America's widening gap between rich and poor, and provides strategies to beat—and reform—a broken system.

**Guilty Admissions** Jan 15 2021 This entertaining exposé on how the other half gets in tells the shockingly true story of the Varsity Blues scandal, and all of the crazy parents, privilege, and con men involved. *Guilty Admissions* weaves together the story of an unscrupulous college counselor named Rick

Singer, and how he preyed on the desperation of some of the country's wealthiest families living in a world defined by fierce competition, who function under constant pressure to get into the "right" schools, starting with pre-school; non-stop fundraising and donation demands in the form of multi-million-dollar galas and private parties; and a community of deeply insecure parents who will do anything to get their kids into name-brand colleges in order to maintain their own A-list status. Investigative reporter Nicole LaPorte lays bare the source of this insecurity—that in 2019, no special "hook" in the form of legacy status, athletic talent, or financial giving can guarantee a child's entrance into an elite school. The result is paranoia, deception, and true crimes at the peak of the American social pyramid. With a glittering cast of Hollywood actors—including Felicity Huffman and Lori Loughlin—hedge fund CEOs, sales executives, and media titans, *Guilty Admissions* is a soap-opera-slash-sneak-peek-behind-the-curtains at America's richest social circles; an examination of the cutthroat world of college admissions; and a parable of American society in 2019, when the country is run by a crass tycoon and all totems of status and achievement have become transactional and removed from traditions of ethical restraint. A world where the rich get whatever they want, however they want it.

Naming names, along with grades and test scores, Golden lays bare a corrupt system in which middle-class and working-class whites

and Asian Americans are routinely passed over in favor of wealthy white students with lesser credentials—children of alumni, big donors, and celebrities. He reveals how a family donation got Jared Kushner into Harvard, and how colleges comply with Title IX by giving scholarships to rich women in "patrician sports" like horseback riding and crew. With a riveting new chapter on Operation Varsity Blues, based on original reporting, The Price of Admission is a must-read—not only for parents and students with a personal stake in college admissions but also for those disturbed by the growing divide between ordinary and privileged Americans. [Spy Schools](#) Oct 31 2019 Pulitzer Prize-winning journalist Daniel Golden exposes how academia has become the center of foreign and domestic espionage—and why that is troubling news for our nation's security. Grounded in extensive research and reporting, *Spy Schools* reveals how academia has emerged as a frontline in the global spy game. In a knowledge-based economy, universities are repositories of valuable information and research, where brilliant minds of all nationalities mingle freely with few questions asked. Intelligence agencies have always recruited bright undergraduates, but now, in an era when espionage increasingly requires specialized scientific or technological expertise, they're wooing higher-level

academics—not just as analysts, but also for clandestine operations. *Golden* uncovers unbelievable campus activity—from the CIA placing agents undercover in Harvard Kennedy School classes and staging academic conferences to persuade Iranian nuclear scientists to defect, to a Chinese graduate student at Duke University stealing research for an invisibility cloak, and a tiny liberal arts college in Marietta, Ohio, exchanging faculty with China's most notorious spy school. He shows how relentlessly and ruthlessly this practice has permeated our culture, not just inside the US, but internationally as well. *Golden*, acclaimed author of *The Price of Admission*, blows the lid off this secret culture of espionage and its consequences at home and abroad.

[Little Platoons](#) Feb 25 2022 This eye-opening book brilliantly explores the true roots of over-parenting, and makes a case for the vital importance of family life. Parents naturally worry about the future. They want to prepare their children to compete in an uncertain world. But often, argues political philosopher and father of three Matt Feeney, today's worried parents surrender their family's autonomy to gain a leg up in this competition. In the American ideal, family life is a sacred and private sphere, distinct from the outside world. But in our hypercompetitive times, Feeney shows, parents have become increasingly willing to let the inner life of the family be colonized by outside forces that promise better

futures for their kids: prestigious preschools, "educational" technologies, youth sports leagues, a multitude of enrichment activities, and -- most of all -- college. A provocative, eye-opening book for any parent who suspects their kids' stuffed schedules are not serving their best interests, *Little Platoons* calls us to rediscover the distinctive, profound solidarity of family life.

**Earning Admission** Nov 12 2020 There is a crisis that millions of families face each fall: how to get their child into highly selective colleges. This crisis spirals out of control as the number of applicants from the U.S. and abroad skyrockets. Whether your child dreams of attending Harvard or Berkeley, *Earning Admission* is the blueprint that empowers your child to use strategic planning and marketing to stand out amongst a sea of applicants and earn admission. This step-by-step guide to earning admission teaches: \* How your child can select and take classes in high school to stand out from other straight 'A' students. \* How your child can dramatically increase her odds of admission by strategically choosing a major. \* How your child can write a personal statement that sets her apart from other applicants by demonstrating perspective, passion, and maturity. \* How your child can build a slate of extracurricular activities that

admissions officers value. \* How your child can secure hundreds of thousands of dollars of merit scholarships or need-based grants even if your family earns over \$100,000 per year.

*Not the Price of Admission* Sep 03 2022 Have you struggled to have the happy, emotionally nourishing relationships that you deserve? If you are a survivor of childhood trauma, neglect, or abuse, you've spent your life feeling as if happiness in love and friendship is for other people, not you. To have connections with others you've paid a price of admission to relationships, sacrificing your values, your safety, your sense of personal worth, and sometimes your financial security. You've felt unworthy of love. You believed, because of how you were treated when you were a child, that you had to pay these prices simply to have people be around you. You've been used and exploited by people who said they loved and cared about you. You've read every relationship self-help book on the market, but none of them seem to understand the ways in which your childhood trauma has affected your ability to be close to others. If this is your life, this book is for you. Drawing upon the author's four decades of working with survivors of childhood trauma, abuse, and neglect, this book teaches you to understand the emotional and

neurobiological causes of your difficult relationship patterns. It describes effective strategies for learning how to trust yourself, how to assess other people more accurately, and how to take care of yourself emotionally so that you can have the healthy relationships that you deserve.

*Unacceptable* May 07 2020 FORBES TOP 10 HIGHER EDUCATION BOOKS OF 2020 The riveting true story behind the Varsity Blues college admissions scandal, a cautionary tale of parenting gone wrong, the system that enabled families to veer so far off course, and the mastermind who made it all happen. When federal prosecutors dropped the bombshell of Operation Varsity Blues, it broke open the crimes of exclusive universities and wealthy families all over the country, shattering the myth of American meritocracy. In *Unacceptable*, veteran Wall Street Journal reporters Melissa Korn and Jennifer Levitz dig deep into how otherwise smart, loving parents became caught up in scandal, led through the side door by one man: college whisperer Rick Singer. *Unacceptable* traces how, over decades, the charismatic Singer easily reeled in parents hoping to guarantee top educations for their children, and exploited a system rigged against regular people. Exploring the status obsession that seduced entitled parents in search of an edge, Korn and Levitz unfurl a scheme that entangled more than fifty conspirators, from wealthy CEOs to famous actresses, leading to imprisonments, ruined careers, and terminated

enrollments. An eye-opening account of corruption in America's most exclusive institutions, *Unacceptable* tells the story of helicopter parenting, coddled teens, and the man who thought he couldn't be caught. Detailing Singer's steady rise and dramatic fall, Korn and Levitz expose the ugly underbelly of elite college admissions, and the devastating consequences of buying success.

It also evaluates explanations for rise in college costs and promotes a package of reforms intended to squeeze more social bang from the many public bucks devoted to higher education.

**The Price of Admission** Oct 04 2022

On the surface Liz Petrone looks as if she has it all: a family, a budding writing career, a successful marriage. But, like so many women, she is desperately lonely. She's also dealing with the life and death of her alcoholic mother and the ghosts of her own suicidal past.

*The Price of Admission* takes us on a journey with Liz from loss into renewed life. Raw, unflinchingly honest, and surprisingly funny, Liz writes from a universally understood place

of struggle, whether that is the deep darkness of grief or the hazy, yet joyful, dimness of demanding everyday lives spent caring for ourselves and our families. Through a combination of personal narrative and common truths, Liz provides a timeless reminder to world-weary readers that, just as birth follows death, light does indeed follow darkness; and that, often, it is because of our pain--and not despite it--that we grow, survive, and--yes--thrive.

[The Getty Villa](#) Mar 05 2020 The original Getty Museum, housed in a replica of a Roman Villa

on a site overlooking the Pacific Ocean, is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful, but topographically challenging, site into one that could continue to accommodate the splendid Museum building and also provide for an outdoor theater, laboratories for conservation work and research, offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum, site plans, and architectural elevations.

**Where You Go Is Not Who You'll Be** Mar 17 2021 Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years. Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In *Where You Go is Not Who You'll Be*, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that--and this indispensable manifesto says it

with eloquence and respect for the real promise of higher education.

**The Price of Admission** Oct 24 2021 Over the past fifteen years, a college education has become increasingly valuable in the labor market. As a result, the stakes have been raised in the debate over college admissions and student financial aid. With the gap in college enrollment widening by family income, the time has come to examine the strengths and weaknesses of the American system for financing higher education and to rethink its structure from the ground up. This book begins with an overview of the many indirect ways in which Americans pay for college--as taxpayers, students, and parents--and describes the sometimes perverse ways in which state and federal financial aid policies interact. Thomas J. Kane evaluates alternative explanations for the rise in public and private college costs--weighing the role of federal financial aid policy, higher input costs, and competitive pressures on individual colleges. He analyzes how far we have come in ensuring access to all. Evidence suggests that large differences in college enrollment remain between high and low income students, even those with similar test scores and attending the same high schools. Kane promotes a package of reforms intended to squeeze more social bang from the many public bucks devoted to higher education. For

example, he advocates "front-loading" the Pell grant program, limiting eligibility to those in their first two years of college, and providing a larger share of federal subsidies by assessing student resources after college rather than evaluating a single year of parents income and assets before college. **Who Gets In and Why** Apr 29 2022 A NEW YORK TIMES NOTABLE BOOK OF 2020 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a "good college." Hint: it's not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school

counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that "who gets in" is frequently more about the college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about "getting in" and what higher education has become, *Who Gets In and Why* not only provides an usually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

*The College Conversation* Oct 12 2020 From an Ivy League dean and a college admissions expert, a guide to help parents support their children as they navigate their way to college *The College Conversation* is a comprehensive resource for mapping the path through the college application process that provides practical advice and reassurance to keep both anxious parents and confused children sane and grounded. Rather than adding to the existing canon of "How to Get In" college guides or rankings, Eric Furda and Jacques Steinberg provide a step-by-step approach to having the tough conversations on this topic with less stress and more success. The book is organized around key discussions and themes that trace the chronological arc of admissions and financial aid--beginning before the assembly of a list of potential colleges and continuing through the receipt of decisions--with a final

section that includes advice on the first year of college. The topics include preliminary conversations about the search, and specifically how parents can think about their children's interests and what kind of college would best

suit them; choosing a college (based on its curriculum, culture, and community); writing the most effective essays; assessing acceptances, including considerations of finances and aid; and making the transition from high school to college life. The College

Conversation will provide parents, students, and counselors with the credible, level-headed information often missing in this process, as well as a much-needed dash of perspective borne of experience.
