Reading Beyond the Book Apr 05 2020 Literary culture has become a form of popular culture over the last fifteen years thanks to the success of televised book clubs, film adaptations, big-box book stores, online bookselling, and face-to-face and online book groups. This volume offers the first critical analysis of mass reading events and the contemporary meanings of reading in the UK, USA, and Canada based on original interviews and surveys with readers and event organizers. The resurgence of book groups has inspired new cultural formations of what the authors call "shared reading." They interrogate the enduring attraction of an old technology for readers, community organizers, and government agencies, exploring the social practices inspired by the sharing of books in public spaces and revealing the complex ideological investments made by readers, cultural workers, institutions, and the mass media in the meanings of reading.

Reading the News Oct 04 2022 We take our news for granted: that it will inform us about the significant people and cite the authoritative ones, reflect the world the way it is, and tell us why something happens as it does. Now, six working journalists, press critics, and scholars at the leading edge of media criticism have been specially commissioned to make the familiar act of reading the news into a fresh and revealing event. Taking the famous "five W's and an H" (Who, What, When, Where, Why, and How), the authors turn these questions back on journalism for the first time to show us exactly what to make of the press. Leon V. Sigal Who? Sources Make the News Carlin Romano What? Grisly Truth about Bare Facts Michael Schudson When? Deadlines, Datelines, and History Where? Cartography, Community, and the Cold War James W. Carey Why And How? The Dark Continent of American Journalism Robert Karl Manoff Writing the News (By Telling the "Story") For everyone who reads the newspaper, for the journalist, and for the media critic alike, these essays offer fresh, provocative insights into a centerpiece of American culture, the news.

Newspaper Journalism Jun 19 2021 Are newspapers faced with an existential threat or are they changing to meet the challenges of a digital world? With the newspaper's role in a state of fundamental redefinition, *Newspaper Journalism* offers a timely and up to the minute analysis of newspapers today, in the context of their historical importance to society. Drawing on their extensive experience in academia and also across local, national, mainstream and alternative newspapers, Cole and Harcup write clearly and engagingly from both industry and scholarly perspectives, and contend that, far from dying, newspapers are doing what they have always done: adapting to a changing environment. This text is essential reading for all students of the press, with comprehensive and critical coverage of the most important debates in the study of newspaper journalism - from ethics and investigative journalism to political economy and the future of the industry. Given the shifting boundaries and central importance of newspapers, it will be of interest to all students of journalism and the media. Praise for the Journalism Studies: Key Texts series: 'It is easy to describe a good textbook for a specific journalistic format... The ideal book has to satisfy a list of requirements that are also bullet-pointed in journalism assignment outlines. A text has to: synthesize the existing body of knowledge; explain concepts clearly; have a logical order of topics; and provide enough information and directions to pursue further study. One may also hope it would include real life examples and be lucid, vivid and a pleasure to read. Hard to find? Not anymore. The new SAGE series Journalism Studies: Key Texts satisfies the main requirements on the list. Carefully planned and meticulously edited by Martin Conboy, David Finkelstein and Bob Franklin, the textbook series is a welcome contribution to the literature of journalism studies... All three books follow the same structural template: an overview of historical development; explication of the political and economic frameworks within particular types of journalism; a review of contemporary practices; social demographics; a comparative analysis of practices around the world; a summary of main conceptual approaches; an indication of future directions; recommendations for further reading. This strong organization resembles a template for a course outline. This is intentional because the series is aimed both at students and their practice-based lecturers, who often come

straight from industry and need time to adjust to the academic environment... [The series] achieves its aim to bridge the sometimes too evident dissonance between journalism theory and practice... They successfully situate discussions about journalism in social and historical contexts. We see the faces of individual journalists, the circumstances of news production, the relationship with owners, the battle between the public service and the profit nature of news, the relevance of journalism work. The detailed account of the conditions under which newspaper, radio and alternative journalism is produced and performed make the Journalism Studies: Key Texts series mandatory reading for both journalism students and their lecturers' - Verica Rupar, Journalism Studies

Critical Readings: Media And Gender Feb 25 2022 How is gender constructed in the media? To what extent do portrayals of gender influence everyday perceptions of ourselves and our actions? In what ways do the media reinforce and sometimes challenge gender inequalities? Critical Readings: Media and Gender provides a lively and engaging introduction to the field of media and gender research, drawing from a wide range of important international scholarship. A variety of conceptual and methodological approaches is used to explore subjects such as: entertainment; news; grassroots communication; new media texts; institutions; audiences. Topics include: Gender identity and television talk shows Historical portrayals of women in advertising The sexualization of the popular press The representation of lesbians on television The cult of femininity in women's magazines Images of African American women and Latinas in Hollywood cinema Sexual violence in the media Women in popular music Pornography and masculine power Women's relationship to the Internet. This book is ideal for undergraduate courses in cultural and media studies, gender studies, the sociology of the media, mass communication, journalism, communication studies and politics.

Reading the Times May 07 2020 When we read the news, we are not merely informed—we're also formed. In this refreshing call to put the news in its place, Jeffrey Bilbro helps us gain a theological and historical perspective on the nature and very purpose of news. Offering an alternative vision of the rhythms of life, he suggests thoughtful practices for media consumption in order cultivate healthier ways of reading and being.

Sound Reporting May 19 2021 Perhaps you've always wondered how public radio gets that smooth, well-crafted sound. Maybe you're thinking about starting a podcast, and want some tips from the pros. Or maybe storytelling has always been a passion of yours, and you want to learn to do it more effectively. Whatever the case—whether you're an avid NPR listener or you aspire to create your own audio, or both—Sound Reporting: The NPR Guide to Audio Journalism and Production will give you a rare tour of the world of a professional broadcaster. Jonathan Kern, who has trained NPR's on-air staff for years, is a gifted guide, able to narrate a day in the life of a host and lay out the nuts and bolts of production with equal wit and warmth. Along the way, he explains the importance of writing the way you speak, reveals how NPR books guests ranging from world leaders to neighborhood newsmakers, and gives sage advice on everything from proposing stories to editors to maintaining balance and objectivity. Best of all—because NPR wouldn't be NPR without its array of distinctive voices—lively examples from popular shows and colorful anecdotes from favorite personalities animate each chapter. As public radio's audience of millions can attest, NPR's unique guiding principles and technical expertise combine to connect with listeners like no other medium can. With today's technologies allowing more people to turn their home computers into broadcast studios, Sound Reporting couldn't have arrived at a better moment to reveal the secrets behind the story of NPR's success.

Agenda Setting May 31 2022 The role of the news media in defining the important issues of the day, also known as the agenda-setting influence of mass communication, has received widespread attention over the past 20 years. Since the publication of McCombs and Shaw's seminal empirical study, more than one hundred journal articles and monographs have appeared. This collection exemplifies the major phases of research on agenda-setting: tests of the basic hypothesis, contingent conditions affecting the strength of this influence, the natural history of public issues, mass media influence on public policy, and the role of external sources from the president to public relations staffs on the news agenda.

Reading Media Theory Feb 13 2021 What does the Frankfurt School have to say about the creative industries? Does the spread of Google prove we now live in an information society? How is Madonna an example of postmodernism? How new is new media? Does the power of Facebook mean we're all media makers now? This groundbreaking volume – part reader, part textbook - helps you to engage thoroughly with some of the major voices that have come to define the landscape of theory in media studies, from the public sphere to postmodernism, from mass communication theory to media effects, from production to reception and beyond. But much more than this, by providing assistance and questions directly alongside the readings, it crucially helps you develop the skills necessary to become a critical, informed and analytical reader. Each reading is supported on the facing page by author annotations which provide comments, dissect the arguments, explain key ideas and terminology, make references to other relevant material, and pose questions that emerge from the text. Key features: Opening chapters: 'What is theory?' and 'What is reading?' bring alive the importance of both as key parts of media scholarship Pre-reading: substantial Introductory sections set each text and its author in context and show the relevance of the reading to contemporary culture Post-reading: Reflection sections summarise each reading's key points and suggests further areas to explore and think about 4 types of annotations help you engage with the reading – context, content, structure, and writing style as well as questions to provoke further thought

Split into 4 sections – Reading theory, Key thinkers and schools, Approaches and Media Theory in context New to the second edition: New chapters on New Media, and Audiences as Producers Reading Media Theory will assist you in developing close-reading and analytic skills. It will also increase your ability to outline key theories and debates, assess different case studies critically, link theoretical approaches to a particular historical context, and to structure and present an argument. As such, it will be essential reading for undergraduate and postgraduate students of media studies, cultural studies, communication studies, the sociology of the media, popular culture and other related subjects.

The Data Journalism Handbook Dec 26 2021 When you combine the sheer scale and range of digital information now available with a journalist's "nose for news" and her ability to tell a compelling story, a new world of possibility opens up. With The Data Journalism Handbook, you'll explore the potential, limits, and applied uses of this new and fascinating field. This valuable handbook has attracted scores of contributors since the European Journalism Centre and the Open Knowledge Foundation launched the project at MozFest 2011. Through a collection of tips and techniques from leading journalists, professors, software developers, and data analysts, you'll learn how data can be either the source of data journalism or a tool with which the story is told—or both. Examine the use of data journalism at the BBC, the Chicago Tribune, the Guardian, and other news organizations Explore in-depth case studies on elections, riots, school performance, and corruption Learn how to find data from the Web, through freedom of information laws, and by "crowd sourcing" Extract information from raw data with tips for working with numbers and statistics and using data visualization Deliver data through infographics, news apps, open data platforms, and download links

Reading for Preaching Jul 21 2021 In Reading for Preaching Cornelius Plantinga makes a striking claim: preachers who read widely will most likely become better preachers. Plantinga -- himself a master preacher -- shows how a wide reading program can benefit preachers. First, he says, good reading generates delight, and the preacher who enters the world of delight goes with God. Good reading can also help tune the preacher's ear for language -- his or her primary tool. General reading can enlarge the preacher's sympathies for people and situations that she or he had previously known nothing about. And, above all, the preacher who reads widely has the chance to become wise. This beautifully written book will benefit not just preachers but anyone interested in the wisdom to be derived from reading. Works that Plantinga interacts with in the book include The Kite Runner, by Khaled Hosseini Enrique's Journey, by Sonia Nazario Silence, by Shusaku Endo "How Much Land Does a Man Need?" by Leo Tolstoy "Narcissus Leaves the Pool" by Joseph Epstein Les Miserables, by Victor Hugo . . . and many more!

Data Journalism and the Regeneration of News Oct 12 2020 Data Journalism and the Regeneration of News traces the emergence of data journalism through a scholarly lens. It reveals the growth of data journalism as a subspecialty, cultivated and sustained by an increasing number of professional identities, tools and technologies, educational opportunities and new forms of collaboration and computational thinking. The authors base their analysis on five years of in-depth field research, largely in Canada, an example of a mature media system. The book identifies how data journalism's development is partly due to it being at the center of multiple crises and shocks to journalism, including digitalization, acute mis- and dis-information concerns and increasingly participatory audiences. It highlights how data journalists, particularly in well-resourced newsrooms, are able to address issues of trust and credibility to advance their professional interests. These journalists are operating as institutional entrepreneurs in a field still responding to the disruption effects of digitalization more than 20 years ago. By exploring the ways in which data journalists are strategically working to modernize the way journalists talk about methods and maintain journalism authority, Data Journalism and the Regeneration of News introduces an important new dimension to the study of digital journalism for researchers, students and educators.

News for All the People: The Epic Story of Race and the American Media Apr 17 2021 Offers a sweeping account of the class and racial conflicts in the American news media, from the first colonial newspaper to the Internet age. By the co-author of Harvest of Empire.

Key Readings in Journalism Aug 02 2022 This work brings together the essential writings that every student of journalism should know. It presents 40 of the most important works about journalism arranged thematically to enable students to think deeply and broadly about journalism - its social impact, its history, key individuals and institutions, its practice and its future.

Stop Reading the News Dec 14 2020 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling The Art of Thinking Clearly, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.

The Elements of Journalism Jul 01 2022 In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, The Elements of Journalism is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill

Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

Fake Accounts Jul 29 2019 A NATIONAL BESTSELLER * A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE * A WASHINGTON POST BEST BOOK OF THE YEAR "An invigorating work, deadly precise in its skewering of people, places and things . . . Stylish, despairing and very funny, *Fake Accounts* . . . adroitly maps the dwindling gap between the individual and the world." —Katie Kitamura, *The New York Times Book Review* A woman in a tailspin discovers that her boyfriend is an anonymous online conspiracy theorist in this "absolutely brilliant take on the bizarre and despicable ways the internet has warped our perception of reality" (*Elle*, One of the Most Anticipated Books of the Year). On the eve of Donald Trump's inauguration, a young woman snoops through her boyfriend's phone and makes a startling discovery: he's an anonymous internet conspiracy theorist, and a popular one at that. Already fluent in internet fakery, irony, and outrage, she's not exactly shocked by the revelation. Actually, she's relieved--he was always a little distant--and she plots to end their floundering relationship while on a trip to the Women's March in DC. But this is only the first in a series of bizarre twists that expose a world whose truths are shaped by online lies. Suddenly left with no reason to stay in New York and increasingly alienated from her friends and colleagues, our unnamed narrator flees to Berlin, embarking on her own cycles of manipulation in the deceptive spaces of her daily life, from dating apps to expat meetups, open-plan offices to bureaucratic waiting rooms. She begins to think she can't trust anyone--shouldn't the feeling be mutual? Narrated with seductive confidence and subversive wit, *Fake Accounts* challenges the way current conversations about the self and community, delusions and gaslighting, and fiction and reality play out in the internet age.

She Said Jul 09 2020 Now a major motion picture, starring Carey Mulligan and Zoe Kazan "An instant classic of investigative journalism... 'All the President's Men' for the Me Too era." — Carlos Lozada, *The Washington Post* From Pulitzer Prize-winning journalists Jodi Kantor and Megan Twohey, the untold story of their investigation of Harvey Weinstein and its consequences for the #MeToo movement For years, reporters had tried to get to the truth about Harvey Weinstein's treatment of women. Rumors of wrongdoing had long circulated, and in 2017, when Jodi Kantor and Megan Twohey began their investigation for the *New York Times*, his name was still synonymous with power. But during months of confidential interviews with actresses, former Weinstein employees, and other sources, many disturbing and long-buried allegations were unearthed, and a web of onerous secret payouts and nondisclosure agreements was revealed. When Kantor and Twohey were finally able to convince sources to go on the record, a dramatic final showdown between Weinstein and the *New York Times* was set in motion. In the tradition of great investigative journalism, *She Said* tells a thrilling story about the power of truth and reveals the inspiring and affecting journeys of the women who spoke up—for the sake of other women, for future generations, and for themselves.

Key Readings in Media Today Sep 03 2022 @text: By combining classic studies of mass communication with contemporary research on media, technology, and culture, *Key Readings in Media Today* will help students to make sense of the rapidly changing media environment. This collection is designed to supplement the 3rd edition of *Media Today: An Introduction to Mass Communication*, but it can also be used independently. *Key Readings in Media Today* provides both historical and contemporary analyses of each of the major media industries: book, newspaper, magazine, sound recording/radio, motion picture, television, new media, advertising, and public relations. The volume places an emphasis on convergence, looking at the ways boundaries between these media industries are blurring in surprising new ways. Section introductions and headnotes for each article offer valuable critical and historical context, while review questions after each reading test students' understanding of key concepts. Additional resources on a companion website are designed to spark classroom discussion and connect the readings to the latest contemporary media issues and controversies.

The View from Somewhere Mar 29 2022 #MeToo. #BlackLivesMatter. #NeverAgain. #WontBeErased. Though both the right- and left-wing media claim "objectivity" in their reporting of these and other contentious issues, the American public has become increasingly cynical about truth, fact, and reality. In *The View from Somewhere*, Lewis Raven Wallace dives deep into the history of "objectivity" in journalism and how its been used to gatekeep and silence marginalized writers as far back as Ida B. Wells. At its core, this is a book about fierce journalists who have pursued truth and transparency and sometimes been punished for it—not just by tyrannical governments but by journalistic institutions themselves. He highlights the stories of journalists who question "objectivity" with sensitivity and passion: Desmond Cole of the *Toronto Star*; *New York Times* reporter Linda Greenhouse; Pulitzer Prize-winner Rachel Kaadzi Ghansah; Peabody-winning podcaster John Biewen; *Guardian* correspondent Gary Younge; former *Buzzfeed* reporter Meredith Talusan; and many others. Wallace also shares his own experiences as a midwestern transgender journalist and activist who was fired from his job as a national reporter for public radio for speaking out against "objectivity" in coverage of Trump and white supremacy. With insightful steps through history, Wallace stresses that journalists have never been mere passive observers—the choices they make reflect worldviews tinted by race, class, gender, and geography. He upholds the centrality of facts and the necessary discipline of verification but argues against the long-held standard of "objective" media coverage that asks journalists to claim they are without bias. Using historical and contemporary examples—from lynching in the nineteenth century to transgender issues in the twenty-first—Wallace offers a definitive critique of "objectivity" as a catchall for accurate journalism. He calls for the dismissal of this damaging mythology in order to confront the realities of institutional power, racism, and other forms of oppression and exploitation in the news industry. Now more than ever, journalism that resists extractive, exploitive, and tokenistic practices toward marginalized people isn't just important—it is essential. Combining Wallace's intellectual and emotional journey with the wisdom of others' experiences, *The View from Somewhere* is a compelling rallying cry against journalist neutrality and for the validity of news told from distinctly subjective voices.

The Journalism Behind Journalism Mar 17 2021 Today's journalists need to know both the skills of how to write, interview, and research, as well as skills that are often thought of as more intangible. This book provides a practical, how-to approach for developing, honing, and practicing the intangible skills critical to strong journalism. Individual chapters introduce journalism's

intangible concepts such as curiosity, empathy, implicit bias, community engagement, and tenacity, relating them to solid journalistic practice through real-world examples. Case studies and interviews with industry professionals help to further establish connections between concept and practice, and mid-chapter and end-of-chapter exercises give the reader a concrete pathway toward developing these skills. The book offers an important perspective for the modern media landscape, where any journalist seeking to make an impact must know how to contextualize events, hold power to account, and inform their community to contribute to a healthy democracy. This is an invaluable text for courses in journalism skills at both the undergraduate and graduate level and anyone training the next generation of journalists.

Lit! Aug 29 2019 I love to read. I hate to read. I don't have time to read. I only read Christian books. I'm not good at reading. There's too much to read. Chances are, you've thought or said one of these exact phrases before because reading is important and in many ways unavoidable. Learn how to better read, what to read, when to read, and why you should read with this helpful guide from accomplished reader Tony Reinke. Offered here is a theology for reading and practical suggestions for reading widely, reading well, and for making it all worthwhile.

Introduction to Journalism Jan 15 2021 An Introduction to Journalism examines the skills needed to work as a journalist in newspapers, television, radio, and online. This book provides case studies as a guide to researching stories, interviewing, and writing for each medium, as well as recording material for both radio and television. It offers a wide range of comments and tips on the best way to approach stories and includes interviews with journalists working on a variety of news outlets, from the BBC to weekly newspapers.

Why We're Polarized Sep 22 2021 One of Bill Gates's "5 books to read this summer," this New York Times and Wall Street Journal bestseller shows us that America's political system isn't broken. The truth is scarier: it's working exactly as designed. In this "superbly researched" (The Washington Post) and timely book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. "The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face," writes political analyst Ezra Klein. "We are a collection of functional parts whose efforts combine into a dysfunctional whole." "A thoughtful, clear and persuasive analysis" (The New York Times Book Review), *Why We're Polarized* reveals the structural and psychological forces behind America's descent into division and dysfunction. Neither a polemic nor a lament, this book offers a clear framework for understanding everything from Trump's rise to the Democratic Party's leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the 20th century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. "Well worth reading" (New York magazine), this is an "eye-opening" (O, The Oprah Magazine) book that will change how you look at politics—and perhaps at yourself.

Reading in a Participatory Culture Oct 31 2019 Building on the groundbreaking research of the MacArthur Foundation's Digital Media and Learning initiative, this book crosses the divide between digital literacies and traditional print culture to engage a generation of students who can read with a book in one hand and a mouse in the other. *Reading in a Participatory Culture* tells the story of an innovative experiment that brought together playwright and director Ricardo Pitts-Wiley, Melville scholar Wyn Kelley, and new media scholar Henry Jenkins to develop an exciting new curriculum to reshape the middle- and high-school English language arts classroom. This book offers highlights from the resources developed for teaching Herman Melville's *Moby-Dick* and outlines basic principles of design, implementation, and assessment that can be applied to any text.

The Journalist and the Murderer Nov 12 2020 A seminal work and examination of the psychopathology of journalism. Using a strange and unprecedented lawsuit by a convicted murder against the journalist who wrote a book about his crime, Malcolm delves into the always uneasy, sometimes tragic relationship that exists between journalist and subject. Featuring the real-life lawsuit of Jeffrey MacDonald, a convicted murderer, against Joe McGinniss, the author of *Fatal Vision*. In Malcolm's view, neither journalist nor subject can avoid the moral impasse that is built into the journalistic situation. When the text first appeared, as a two-part article in *The New Yorker*, its thesis seemed so radical and its irony so pitiless that journalists across the country reacted as if stung. Her book is a work of journalism as well as an essay on journalism: it at once exemplifies and dissects its subject. In her interviews with the leading and subsidiary characters in the MacDonald-McGinniss case -- the principals, their lawyers, the members of the jury, and the various persons who testified as expert witnesses at the trial -- Malcolm is always aware of herself as a player in a game that, as she points out, she cannot lose. The journalist-subject encounter has always troubled journalists, but never before has it been looked at so unflinchingly and so ruefully. Hovering over the narrative -- and always on the edge of the reader's consciousness -- is the MacDonald murder case itself, which imparts to the book an atmosphere of anxiety and uncanniness. *The Journalist and the Murderer* derives from and reflects many of the dominant intellectual concerns of our time, and it will have a particular appeal for those who cherish the odd, the off-center, and the unsolved.

Language and Media Sep 30 2019 Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries, and key readings—all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections—introduction, development, exploration, and extension— which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. This revised second edition of *Language and Media*: Provides an accessible introduction and comprehensive overview of the major approaches and methodological tools used in the study of language and media. Focuses on a broad range of media and media content from more traditional print and broadcast media formats to more recent digital media formats. Incorporates practical examples using real data, including newspaper articles, press releases, television shows, advertisements (print, broadcast, and digital), blogs, social media content, internet memes, culture jamming, and protest signs. Includes key readings from leading scholars in the field, such as Jan Blommaert, Sonia Livingstone, David Machin, Martin Montgomery, Ruth Page, Ron Scollon, and Theo van Leeuwen. Offers a wide range of activities, questions, and points for further

discussion. The book emphasises the increasingly creative ways ordinary people are engaging in media production. It also addresses a number of urgent current concerns around media and media production/reception, including fake news, clickbait, virality, and surveillance. Features of the new edition include: Special attention on 'new media' forms such as websites, podcasts, YouTube videos, social media sites, and mobile apps such as Snapchat and Instagram; Additional material on: mobility and materiality in media, memes and virality, discourse processes in media production, collaborative production and user created content, reality TV, fake news, the role of algorithms and bots in media production and circulation, and media and resistance; Discussion of media surveillance, privacy boundaries, and the so-called 'right to be forgotten' related to Internet archiving; Brand new readings from key scholars in the field including Pii Varis, Jan Blommaert, Monika Bednarek and Martin Montgomery; Updated examples and references throughout, to reflect more contemporary issues. Written by three experienced teachers and authors, this accessible textbook is an essential resource for all students of English language and linguistics.

Citizen Journalism Mar 05 2020 Citizen Journalism explores citizen participation in the news as an evolving disruptive practice in digital journalism. This volume moves beyond the debates over the mainstream news media attempts to control and contain citizen journalism to focus attention in a different direction: the peripheries of traditional journalism. Here, more independent forms of citizen journalism, enabled by social media, are creating their own forms of news. Among the actors at the boundaries of the professional journalism field the book identifies are the engaged citizen journalist and the enraged citizen journalist. The former consists of under-represented voices leading social justice movements, while the latter reflects the views of conservatives and the alt-right, who often view citizen journalism as a performance. Citizen Journalism further explores how non-journalism arenas, such as citizen science, enable ordinary citizens to collect data and become protectors of the environment. Citizen Journalism serves as an important reminder of the professional field's failure to effectively respond to the changing nature of public communication. These changes have helped to create new spaces for new actors; in such places, traditional as well as upstart forms of journalism negotiate and compete, ultimately aiding the journalism field in creating its future.

Practical Journalism Feb 02 2020 Practical Journalism: How to Write News introduces the beginner to the skills needed to become a journalist in the digital age. The book draws on interviews with dozens of working journalists. They share their thoughts on the profession and we watch them work - selecting stories, carrying out interviews and writing scripts. There are chapters on interviewing, research techniques and news writing. Further chapters cover working in broadcasting and online. Media law and ethics are also included. Most journalists believe they work ethically although few have set rules and others admit to being pressured to behave underhandedly. This book looks at how journalists can work more ethically and provides a guide for beginners. The book is easy to read. Each chapter concludes with activities and a list of further reading. A glossary of terms is included at the end of the book.

The Media and Communications Study Skills Student Guide Jan 03 2020 All the tips, ideas and advice given to, and requested by, MA students in Media and Communications, are brought together in an easy-to-use accessible guide to help students study most effectively. Based upon many years of teaching study skills and hundreds of lecture slides and handouts this introduction covers a range of general and generic skills that the author relates specifically towards media and communications studies. As well as the mechanics of writing and presentations, the book also shows how students can work on and engage with the critical and contemplative elements of their degrees whilst retaining motivation and refining timekeeping skills. Of course the nuts and bolts of reading, writing, listening, seminars and the dreaded dissertation and essays are covered too. In addition advice on referencing, citation and academic style is offered for those with concerns over English grammar and expression. Aimed primarily at postgraduate students, there is significant crossover with undergraduate work, so this book will also prove of use to upper level undergraduate readers whether using English as a first or second language.

Communities of Journalism Aug 22 2021 Widely acknowledged as one of our most insightful commentators on the history of journalism in the United State, David Paul Nord offers a lively and wide-ranging discussion of journalism as a vital component of community. In settings ranging from the religion-infused towns of colonial America to the rapidly expanding urban metropolises of the late nineteenth century, Nord explores the cultural work of the press.

Second Reading Dec 02 2019 The Pulitzer Prize-winning book critic shares recollections and reviews from his career at the *Washington Post*. In this book, Jonathan Yardley considers lesser-known works from renowned authors and underappreciated talents, and offers fresh takes on old favorites. Yardley's reviews of sixty titles include fiction by Gabriel García Márquez, John Cheever, and Henry Fielding; the autobiography of Louis Armstrong; essays by Nora Ephron; and Margaret Leech's history of Washington during the Civil War. *Second Reading* is also the memoir of a passionate and lifelong reader told through the books that have meant the most to him. Playing the part of both reviewer and bibliophile, Yardley takes on Steinbeck and Salinger, explores the southern fiction of Shirley Ann Grau and Eudora Welty, looks into a darker side of Roald Dahl, and praises the pulp fiction of William Bradford Huie and the crime novels of John D. MacDonald. Collected from a popular *Washington Post* column of the same name, *Second Reading* is an incisive and entertaining look at the career and times of an esteemed critic and the venerable books that shaped him. This delightful consideration reminds readers that thoughtful criticism and a lively sense of fun can exist side by side.

Readings in Mass Communication Apr 29 2022 This reader is designed to supplement any core textbook in Introduction to Mass Communication. The goal of the reader is to help students think more critically about the media. By drawing from a wide variety of sources and political and cultural viewpoints, this collection is predicated on the fact that students learn about the media mainly through the media—by reading or hearing about media in media publications or broadcasts. These articles are drawn mostly from popular and alternative media and take a hard and critical look at the political and social forces that drive media decision making.

Journalism and Celebrity Aug 10 2020 This insightful book traces the development of journalism and celebrity and their relationship to and influence on political and social spheres from the beginnings of capitalist democracy in the 18th century to the present day. *Journalism and Celebrity* provides the first account of its kind, revealing the people, places, platforms, and production practices that created celebrity journalism culture, following its origins in the London-based press to its reinvention by the American mass media. Through a transdisciplinary approach to theory and method, this book argues that those who place celebrity in binary to what journalism should be often miss the importance of their mutual dependency in making our societies what they are. Including historical and contemporary case studies from the UK and US, this book is excellent reading for journalism, communication, media studies, and history students, as well as scholars in the fields of journalism, celebrity, cultural studies and political communication.

Journalism Education for the Digital Age Jun 07 2020 This book examines pressing debates concerning how and why journalism education should respond to digital changes in and around the industry, and questions market oriented ideology and civic responsibility in the field. Surveying a broad field of discourse and research into journalism education, Creech shows how public ideals, market logics and industry concerns have come to animate discussions about digital journalism education and journalism's future, and how academic structures and cultures are positioned as a key obstacle to attaining that future. The book examines labor conditions, critiques of journalism education as an institution, and curricular change, with reference to how conversations around race, fake news, and digital infrastructures impact the field. Creech argues for a critical pedagogy of journalism education, one that pushes beyond jobs training and instead is centred around a commitment to public and civic value via a liberal arts tradition made practicable for the digital age. This insightful book is vital reading for journalism educators and scholars, as well as journalists and news executives, education scholars, and program officers and decision-makers at journalism-adjacent foundations and think tanks.

Key Readings in Journalism Nov 05 2022 *Key Readings in Journalism* brings together over thirty essential writings that every student of journalism should know. Designed as a primary text for undergraduate students, each reading was carefully chosen in response to extensive surveys from educators reflecting on the needs of today's journalism classroom. Readings range from critical and historical studies of journalism, such as Walter Lippmann's *Public Opinion* and Michael Schudson's *Discovering the News*, to examples of classic reporting, such as Carl Bernstein and Bob Woodward's *All the President's Men*. They are supplemented by additional readings to broaden the volume's scope in every dimension, including gender, race, and nationality. The volume is arranged thematically to enable students to think deeply and broadly about journalism—its development, its practice, its key individuals and institutions, its social impact, and its future—and section introductions and headnotes precede each reading to provide context and key points for discussion.

Beyond News Oct 24 2021 For a century and a half, journalists made a good business out of selling the latest news or selling ads next to that news. Now that news pours out of the Internet and our mobile devices—fast, abundant, and mostly free—that era is ending. Our best journalists, Mitchell Stephens argues, instead must offer original, challenging perspectives—not just slightly more thorough accounts of widely reported events. His book proposes a new standard: “wisdom journalism,” an amalgam of the more rarified forms of reporting—exclusive, enterprising, investigative—and informed, insightful, interpretive, explanatory, even opinionated takes on current events. This book features an original, sometimes critical examination of contemporary journalism, both on- and offline. And it finds inspiration for a more ambitious and effective understanding of journalism in examples from twenty-first-century articles and blogs, as well as in a selection of outstanding twentieth-century journalism and Benjamin Franklin's eighteenth-century writings. Most attempts to deal with journalism's current crisis emphasize technology. This book emphasizes mindsets and the need to rethink what journalism has been and might become.

Reading the News Without Losing Your Faith Jan 27 2022 In the digital age, it is practically impossible to avoid lurid headlines or hot-off-the-press scandals. When these scandals involve the Church, it raises questions for many about what it means for people of faith. Christopher R Altieri, a veteran journalist and Vatican expert, offers insight into how the news is made, how to spot clickbait and "fake news", and how to discover the real stories behind the shocking headlines. Through a series of recollections from a career in covering the Vatican beat, he offers insight into how he can write about scandal and abuse - and how we can read about it - without losing faith in the promises of Christ.
