Improve Your Business Aug 22 2021 This Trainer's Guide takes trainers step by step through the setting up of a 40-hour course using the materials in the book to improve Your Business Basics. Few publications are simple and clear enough to be easily understood by people who have not been exposed to business training, and yet still communicate the basic management skills required by entrepreneurs to run small businesses successfully. Improve Your Business Basics attempts to fill that gap. The underlying idea that improvements originate from active and creative thinking by entrepreneurs themselves is developed in the book to encourage and motivate entrepreneurs to improve their businesses. It forms an integral part of the Start and Improve Your Business (SIYB) programme which, in turn, is part of the ILO's International Small Enterprise Programme. The SIYB programme has been designed to provide a sustainable and cost-effective method of reaching substantial numbers of small-scale entrepreneurs and provide them with the practical management skills needed for profitability in a competitive environment. The SIYB programme provides individuals and institutions with a comprehensive and inter-related set of training materials. Aimed at a variety of target groups, it deals with various topics related to small-enterprise development such as training, business

counseling, monitoring and evaluation, and networking. Small-enterprise development institutions in more than 70 countries have used the SIYB programme. The new international edition draws on more than a decade of operational experience.

Feedback on presentations can range from “What was the point?” to “That changed my life.” Most, though, fall closer to the former. If you are looking for a guide to the PowerPoint practices that will push your presentations into the latter category, look no further. *A Trainer's Guide to PowerPoint: Best Practices for Master Presenters* is Mike Parkinson's master class on the art of PowerPoint. While Parkinson wants you to understand how amazing a tool PowerPoint is, he's the first to tell you that there is no magic button to make awesome slides. In this book he shares them, detailing his award-winning PowerPoint process and guiding you through three phases of presentation development—discover, design, and deliver. What's more, Parkinson is a Microsoft PowerPoint MVP—most valuable professional—an honorific bestowed by Microsoft on those with “very deep knowledge of Microsoft products and services.” He shares not only his tips and best practices for presentation success, but also those from several of his fellow MVPs. Parkinson invites you to master PowerPoint as a tool—just like a paintbrush and paint—and to realize that the tool doesn't make the art, you do.
