Tony Wheeler's Bad Lands Dec 14 2020 In an age of plastic knives on planes, Tony Wheeler can make the extraordinary claim of having visited all the rogue countries currently on newreaders' lip. Badlands is a witty first-hand account of his travels through some of the most repressive and dangerous regimes in the world: Afghanistan, Albania, Burma (Myanmar), Cuba, Iran, Iraq, Libya, North Korea and Saudi Arabia. Taking into account each country's attitude to human rights, terrorism and foreign policy, he asks 'what makes a country truly evil?' and 'how bad is really bad?' - all the while

engaging with a colorful cast of locals and hapless tour guides, ruminating on history and debunking popular myths. Written by the founder of Lonely Planet, this fascinating account of life in these closed-off countries will appeal to anyone with an interest in the state of the world today

Flash Point Nov 12 2020 Dan Coldrain is a former elite Royal Marine Commando haunted by the death of his best mate Reese, killed in action by enemy forces. Coldrain used to believe in honour, service, and the call of duty, but haunted by Reese's death, he drops out of service and instead seeks the lucrative pay cheques on the private military contractor's circuit. Soon the Sandman, a shadowy figure with connections to the political underworld, lurks into view, with a proposal for Coldrain: find a man called Dogan - a terrorist responsible for a slew of lethal IED attacks in both Iraq and Afghanistan - detain him and hand him over to the Sandman. For this simple task Coldrain will be granted a four-man team, access to high-grade weapons and explosives and vehicles, and a cool £1 million per head once the mission is completed. And so the hunt begins, with the contractors dragged through hell and back in search of their deadly suspect. Will Coldrain and his team complete their mission successfully? And, most importantly, will Coldrain battle the demons which so haunt him over his friend's death?

Technicals May 07 2020 Over the last 30 years, the 'technical' or armed pick-up truck has become arguably the most ubiquitous military land vehicle of modern warfare. Harking back to the armed Jeeps and Chevrolet trucks of the SAS and Long Range Desert Group in North Africa in World War II, the world's first insurgent technicals were those of the Sahrawi People's Liberation Army in Algeria in the late 1970s, followed by the Chadian use of technical in the so-called Toyota War against Libya. Since then, technicals have seen use in Somalia, Iraq, Afghanistan and Libya, as well as being used by Western and Russian Special Forces. Fully illustrated with commissioned artwork and providing rigorous analysis, this is the first history of how this deceptively simple fighting vehicle has been used and developed in conflicts worldwide.

Al Qaeda in the Islamic Maghreb Sep 22 2021 Insurgencies in Iraq, Afghanistan, Syria, Yemen and elsewhere the majority linked to al Qaeda are in the news on an almost daily basis. But very little surfaces about a festering insurgency that has been on the go for six years in West Africa under the acronym of AQIM, or al Qaeda in the Islamic Maghreb. This low-level series of guerrilla conflicts is widespread and sporadic, covering an area as vast as Europe. Nigeria has been drawn into the equation because its Boko Haram insurgent faction maintains close ties with AQIM and Islamic State. For now though, the focus is on Mali where several jihadist groups despite formal peace agreements remain active. Involved is the French army and air force as well as the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA), the European Union Training Mission in Mali (EUTM) as well as the European Union Capacity Building Mission (EUCAP). The insurrection that fostered all this broke out early 2012 when

President Francois Hollande announced the beginning of Operation Serval. Five hours later the first squadrons of French Gazelle helicopter gunships began attacking Islamist columns. A day later French fighter jets based in Chad, almost 2,000 kilometers away, were making sorties against rebel ground targets in northern Mali.
