**Blockchain Revolution** Sep 30 2019 Blockchain technology is powering our future. As the technology behind cryptocurrencies like bitcoin and Facebook's Libra, open software platforms like Ethereum, and disruptive companies like Ripple, it's too important to ignore. In this revelatory book, Don Tapscott, the bestselling author of *Wikinomics*, and his son, blockchain expert Alex Tapscott, bring us a brilliantly researched, highly readable, and essential book about the technology driving the future of the economy. Blockchain is the ingeniously simple, revolutionary protocol that allows transactions to be simultaneously anonymous and secure by maintaining a tamperproof public ledger of value. Though it's best known as the technology that drives bitcoin and other digital currencies, it also has the potential to go far beyond currency, to record virtually everything of value to humankind, from birth and death certificates to insurance claims, land titles, and even votes. Blockchain is also essential to understand if you're an artist who wants to make a living off your art, a consumer who wants to know where that hamburger meat really came from, an immigrant who's tired of paying big fees to send money home to your loved ones, or an entrepreneur looking for a new platform to build a business. And those examples are barely the tip of the iceberg. As with major paradigm shifts that preceded it, blockchain technology will create winners and losers. This book shines a light on where it can lead us in the next decade and beyond.

The Women's Army Corps, 1945-1978 Jul 21 2021 After years out of print, this new and redesigned book brings back the best and most complete history of the Women's Army Corps. Loaded with history, tables, charts, statistics, photos, personalities, and many useful appendices (including a history of WAC uniforms), *The Women's Army Corps, 1945-1978* is must reading for anyone who served those years in the Army as well as for those who want a complete history of the modern-day military. Author Bettie Morden served from 1942-1972 and she used her experience and access to people and records to compile the definitive reference work. Col. Morden is a graduate of the WAC Officers' Advanced Course (1962); Command and General Staff College (1964); and the Army Management School (1965). She has been awarded the Distinguished Service Medal, the Legion of Merit, the Joint Service Commendation Medal, and the Army Commendation Medal with Oak Leaf Cluster.

The Handmaid's Tale Oct 24 2021 Before *The Testaments*, there was *The Handmaid's Tale*: an instant classic and eerily prescient cultural phenomenon, from “the patron saint of feminist dystopian fiction” (New York Times). *The Handmaid's Tale* is a novel of such power that the reader will be unable to forget its images and its forecast. Set in the near future, it describes life in what was once the United States and is now called the Republic of Gilead, a monotheocracy that has reacted to social unrest and a sharply declining birthrate by reverting to, and going beyond, the repressive intolerance of the original Puritans. The regime takes the Book of Genesis absolutely at its word, with bizarre consequences for the women and men in its population. The story is told through the eyes of Offred, one of the unfortunate Handmaids under the new social order. In condensed but eloquent prose, by turns cool-eyed, tender, despairing, passionate, and wry, she reveals to us the dark corners behind the establishment's calm facade, as certain tendencies now in existence are carried to their logical conclusions. *The Handmaid's Tale* is funny, unexpected, horrifying, and altogether convincing. It is at once scathing satire, dire warning, and a tour de force. It is Margaret Atwood at her best.

SEAL Team Six Sep 10 2020 The New York Times best selling book that takes you inside SEAL Team Six – the covert squad that killed Osama Bin Laden SEAL Team Six is a secret unit tasked with counterterrorism, hostage rescue, and counterinsurgency. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of the 18 snipers in SEAL Team Six, Wasdin became the best—which meant one of the best snipers on the planet.

Less than half a year after sniper school, he was fighting for his life. The mission: capture or kill Somali warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever possible. But everything went quickly to hell when his small band of soldiers found themselves fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

*The Secret* Apr 29 2022 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of **THE SECRET**. Are you smart enough? **THE SECRET: A TREASURE HUNT** was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

*Conquest of the Useless* Jul 09 2020 “Hypnotic....It is ever tempting to try to fathom his “restless spirit and his determination to challenge fate.” —Janet Maslin, New York Times Werner Herzog (*Grizzly Man*) is one of the most revered and enigmatic filmmakers of our time, and *Fitzcarraldo* is one of his most honored and admired films. More than just Herzog’s journal of the making of the monumental, problematical motion picture, which involved, among other things, major cast changes and reshoots, and the hauling (without the use of special effects) of a 360-ton steamship over a mountain, *Conquest of the Useless* is a work of art unto itself, an Amazonian fever dream that emerged from the delirium of the jungle. With fascinating observations about crew and players—including Herzog’s lead, the somewhat demented internationally renowned star Klaus Kinski—and breathtaking insights into the filmmaking process that are uniquely Werner Herzog, *Conquest of the Useless* is an eye-opening look into the mind of a cinematic master.

**Pesticidal Plants** Jan 03 2020 The global biodiversity and climate emergencies demand transformative changes to human activities. For example, food production relies on synthetic, industrial and non-sustainable products for managing pests, weeds and diseases of crops. Sustainable farming requires approaches to managing these agricultural constraints that are more environmentally benign and work with rather than against nature. Increasing pressure on synthetic products has reinvigorated efforts to identify alternative pest management options, including plant-based solutions that are environmentally benign and can be tailored to different farmers' needs, from commercial to small holder and subsistence farming. Botanical insecticides and pesticidal plants can offer a novel, effective and more sustainable alternative to synthetic products for controlling pests, diseases and weeds. This Special Issue reviews and reports the latest developments in plant-based pesticides from identification of bioactive plant chemicals, mechanisms of activity and validation of their use in horticulture and disease vector control. Other work reports applications in rice weeds, combination biopesticides and how chemistry varies spatially and influences the effectiveness of botanicals in different locations. Three reviews assess wider questions around the potential of plant-based pest management to address the global challenges of new, invasive and established crop pests and as-yet underexploited pesticidal plants.

*The Refusal of Work* Aug 22 2021 Paid work is absolutely central to the culture and politics of capitalist societies, yet today's work-centred world is becoming increasingly hostile to the human need for autonomy, spontaneity and community. The grim reality of a society in which some are overworked, whilst others are condemned to intermittent work and unemployment, is progressively more difficult to tolerate. In this thought-provoking book, David Frayne questions the central place of work in mainstream political visions of the future, laying bare the ways in which economic demands colonise our lives and priorities. Drawing on his original research into the lives of people who are actively resisting nine-to-five employment, Frayne asks what motivates these people to disconnect from work, whether or not their resistance is futile, and whether they might have the capacity to inspire an alternative form of development, based on a reduction and social redistribution of work. A crucial dissection of the work-centred nature of modern society and emerging resistance to it, *The Refusal of Work* is a bold call for a more humane and sustainable vision of social progress.

**Homefront** Jun 07 2020 A look at Fayetteville, North Carolina, home to Fort Bragg, that poses the question, 'Are we all military dependents?' Fayetteville has earned the nicknames of Fatalville and Fayetteenam. Unusual and not-sounusual features of the town include gross income inequalities, an extraordinarily high incidence of venereal disease, miles and miles of strip malls, and a history of racial violence. Through interviews with residents and historical research, Catherine Lutz immerses herself in the life of the town to discover how it has supported the military for over a century. From secret training operations that use civilians as mock enemies and allies to the satellite economy of the town, Lutz's history of Fayetteville reveals the burdens that military preparedness creates for all of us.

*A Socialist Empire* Jun 19 2021 2011 Reprint of 1961 Edition. Many social scientists have attempted to lump the unique Inca society into modern political and economic categories. Louis Baudin argued that Incan society was socialistic. He claimed that the ayllu system is what classified the Inca as a system of state socialism. Baudin defines state socialism as being based on the idea of the regulative action of a central power in social relations. According to Baudin, the idea of private property in Europe had been in existence for centuries, but no such idea existed at the times of the Incas. He claims, that society in Peru rested on a foundation of collective ownership which, to a certain extent, facilitated its establishment, because the effacement of the individual within a group prepared him to allow himself to be absorbed. Baudin argued that the higher ranking Incas tried, and succeeded to an extent, to force a degree of uniformity on the common Inca. The Inca were forced to dress similarly, eat the same food, practice the same religion, and speak the same language, Quechua.

*An American Woman in Kuwait* May 19 2021 *An American Woman in Kuwait* is a travelogue written by an American lawyer who accompanied her husband, a Ph.D. immunologist, to Kuwait. The trip spanned almost six months, during the cooler parts of the year, from November 2004 to May 2005. Kuwait is a tiny nation covered almost entirely by barren desert. Its huge petroleum reserves and strategic location have made it a playing field on which great military conflicts have been settled during the past two decades. The country, located at the northern end of the Persian Gulf, became one of the wealthiest nations in history following discovery of oil in 1938 and development of the oil fields brought its citizens an unparalleled level of personal comfort. The author lived among Kuwaitis, ate traditional foods, mingled with Kuwaitis, studied Kuwaiti history, visited most of its museums, and spent a weekend with her husband at the Wafra Farms Oasis as Kuwaitis celebrated their Independence and Liberation Day holidays. She was even lucky enough to meet Kuwait's most famous woman suffragist, Rola A. Al-Dashti, Ph.D. Stephanie made friends with Kuwaitis. She and her husband met people from Kuwait's large community of expatriates – Egyptians, Turks, Syrians, and even one man from Saudi Arabia, which led to a hilarious encounter. Their cat, Scheherazade, a Kuwaiti war veteran herself, accompanied Stephanie to Kuwait. *An American Woman in Kuwait* is also the perfect guide for anyone traveling with a pet in the Islamic world. The book includes a glossary of Arabic words with a bibliography of the books and articles she read while in Kuwait.
